MIDDLETOWN, DEL.

SATURDAY MORNING, NOVEMBER 25th, 1871.

CURRENT TOPICS.

The Chicago fire and the fires on the prairies and in the fields and forests of Michigan and Wisconsin, have had their period of excitement and have died away. The elections in the different States are over, the battles fought, the victories won and lost by the respective contestants. The ku-klux proclamation and the suspension of *habeas corpus* have left their stain. The small-pox and the cholera excitements are passing away, and even Tammany has become stale, flat and unprofitable. And now we have the arrival of the Grand Duke Alexis, whose Argosy arrived in New York bay, on Saturday last, and the arrival is hailed with all the more enthusiasm and welcome because painful apprehensions began to be felt that he and his retinue had met with disaster at sea. And now the most lavish hospitality awaits this scion of a royal house, and *fussy* demonstrations in his honor will be made. We are a republican people, so-called, but make more ado, perhaps, over titled foreigners, than any other people under the sun. New York and Washington snobbery is all on tip-toe and in a whirl of excitement, of course. Well, Alexis and the furor of excitement attending upon his presence, will soon pass away we shall be hunting for new wonders to feed our ever unsated thirst for something new. Next week comes Thanksgiving day, in danger of degenerating into a matter of mere form. In the near future comes the re-opening of the Forty-Second Congress, which will feed our craving maw-worm for a time, though nothing good need be expected from that quarter; for, instead of being a wise body of the people's representatives, it has degenerated into a mere cabal, the assembling of which is looked forward to with foreboding and distrust. We pass from Congress to a subject far more agreeable, the near approach of the holidays. Around the Christmas festival cluster our holiest, purest and best affections. Visions of good cheer, also, are invariably conjured up in one's imagination—turkey and celery and cranberry sauce, mince pies, oysters, sausage, hominy and buckwheat cakes, with bon-bons and nick nacks, *quantum sufficit*. In January the Republican National Committee will meet in Washington to determine the time and place of holding the National Convention. The Democratic National Committee will also meet in Washington about the same time for a similar purpose. The first mentioned will be nominate General Grant, the second to nominate the next President, mark that. And this introduces us to the subject of the next Presidential election, which although it may be classed among currrent topics, is too remote for further consideration at this time; and here we will close our reference to current topics, for the present, at least.

Peters' Musical Monthly for December is to hand, containing nineteen choice pieces of Vocal and Instrumental Music, all of which can be had for 30 cents. It seems hard to believe that so much can be furnished for such a small sum, but *we know* that it is. It comes regularly every month, and contains *nothing but good* Music.

Bound volumes for 1871 are offered, post-paid, for $5. They come elegantly bound in crimson cloth, gilt sides and edges, and are guaranteed to contain $50 worth of choice Piano Music, (some 200 pieces.) If ordered per express, $4.50 will secure it. We would advise all those seeking Holiday Presents to bear this work in mind. Music is always a proper present to a lady, and in no other shape can the same amount of good music be bought. It is published by J. L. PETERS, 599 Broadway, New York.

The Pennsylvania Railroad Company has made the announcement that the "United Companies" of New Jersey will be taken possession of by it under its lease of 999 years on the 1st of December next, and that it has appointed officials to take charge of the same. The same Company has closed a contract with the International Steamship Navigation Company for a line of steamers between Philadelphia and Antwerp.

The final arrangements have been concluded by which the Cleveland and Pittsburg Railroad is also leased to the Pennsylvania Railroad.

The Republican members of the Ku-Klux Committee have instructed Senator [illegible] Chairman of the Committee, to [illegible] examination of Franklin Grant to [illegible] in order [illegible] by [illegible] Democratic members of the Committee.

LOCAL AND STATE AFFAIRS.

COURT.—The Court of Oyer and Terminer and General Sessions of the Peace and Jail Delivery commenced at New Castle on Monday. The general jury being called, the following cases were considered:

ON MONDAY

there were tried two cases for selling liquor to minors, and six cases for selling liquor on Sunday, some of the parties being charged with ten offences. In one case license was forfeited, and in the other fines and costs were imposed. The Grand Jury found two bills for murder—one against Stephen H. Costen for the murder of Chas. Woolsey, at Christiana, on the 5th instant; and the the other against Alfred Boyce for the murder of John Mawheuny, near this town, in August last.

TUESDAY.

Peter Talley charged with obstructing the public road—verdict, not guilty.

Joshua Lutton, charged with larceny, in Christiana Hd. of two watches, watch-chain, and a cloth cap, pleaded guilty. Sentenced to pay $36.50 restitution money, costs, to receive 20 lashes on Saturday, be imprisoned six months, and to wear a convict's jacket six months after being discharged. Lutton is an old offender.

Charles Blake pleaded guilty of the larceny of a watch and was sentenced to pay $250 restitution money and costs, to receive ten lashes on December 2nd, be imprisoned six months, and wear a convict's jacket six months after his discharge.

John Bush, col. was convicted of breaking into the store of Mary Carter, Wilmington, and stealing a cloak, two dresses, &c. and sentenced to pay $54.85 (some of the goods were recovered) restitution money, costs, to receive 20 lashes on Saturday, and be imprisoned 18 months.

Alfred Price, charged with assault upon Philip Vinyard, in Appoquinimink Hundred, at Johnson's store, proved his innocence.

Morton Saxon, charged with larceny, proved his innocence.

Thomas Ventris, colored, charged with assault with intent to kill Louis Dickson, in Wilmington, was found guilty.

THURSDAY.

The Court was engaged all day in the trial of Stephen H. Costen for the murder of Charles Woolsey, in Christiana, on the 5th inst. The witnesses were all examined and Bates for prosecution finished his speech.

FRIDAY.

The Costen-Woolsey murder trial was continued. Rodney for defense and Lore for prosecution made their speeches, after which the case was given to the jury, and the trial of Alfred Boyce for the murder of John Mawhenny, in August last, near Middletown, was commenced.

The Bombay Hook Railroad is again on the *tapis*. On Saturday Mr. Landis, in company with the engineer, Mr. Pierson, and Mr. Charles B. Campbell, were in town, when a meeting of the Directors was held, at which a new contract was entered into with Mr. Campbell, the gentleman above named, for the construction of the road. The former contract, with Mr. Landis, is null and void. He, being a director, could not contract, according to the provisions of the charter, which was overlooked at the time. Mr. J. W. Spruance, the President, informs us that an instalment on the capital stock will be called in shortly, and the engineer will commence his labors again this week. He also states that Benj. H. Brewster, Esq. of Philadelphia, has been appointed trustee, to negotiate the bonds. So much for the present—more as events transpire.—*Smyrna Times.*

SMALL-POX.—This loathsome disease which originated in Philadelphia, is now fast spreading over the country. It is raging in New York as well as in Philadelphia, and there are some cases in both Wilmington and Baltimore. To come nearer home, there is a case about a mile and ahalf this side of New Castle, one in or near Delaware City, one at Blackbird, and one case reported at Fieldsborough. The disease is destined to spread over the country, unless every precaution is taken. Every one should be vaccinated, and the town and city authorities everywhere should see to it that it is done. Let the Board of Commissioners make provisions to have it done in Middletown.

A SUCCESSFUL RAILROAD.—The Queen Anne's Railroad, completed but a short time since, connecting Centreville with Townsend, Del. is doing a prosperous business, and its trade gradually increasing. The gross earnings of the road for August and September amounts to $5,275.61; $1,994.22 of which were earned in August, and $3,028.61 in September. The business in freight was $4,222,19—passengers $1,084.03. The total expenses for the two months was $2,100—leaving a net revenue of $1,175 60 which more than pays the interest, on the entire cost of the road. —*Centreville Citizen.*

Philip Philips, the "Singing Pilgrim," will give an evening of song, in the Town Hall, on Tuesday evening next, the proceeds for the benefit of the Methodist Sabbath school. Mr. Philips is widely known as a gifted singer, and has received the highest encomiums of the press both in this country and in Europe. The British *Workman* says: "God has gifted him with the power of song, and as Moses touched the rock with the staff, so has our new singer touched the hearts of the people of England with the pathos and power of his melody. May his pilgrimage long be blessed."

DON'T KILL THE SPARROWS.—A flock of about twenty English Sparrows may be seen daily in hedges on the public road near the depot. They are the increase of the three pairs turned loose at the National Hotel in the spring. Boys should be cautioned against interfering with them in any manner, and in another year they will be able to take care of themselves. Would it not be well for the Town Commissioners to pas an ordinance for their protection?

Miss Martha Biddle having resigned her position as Principal of the Warwick Academy, has accepted the position as Principal of the Grade School, in Chesapeake City. Miss Biddle will assume her duties on Monday next, and will have the charge of the academy and the "Bayard School."

SALE OF A HOUSE.—George W. Ingram & Co. brokers and real estate agents, sold last week, the house of Nathan Simmons, on High street in this town, to John H. Woods, of Odessa, for the sum of $1,600 cash. Mr. Wood will take possession on the 1st of January.

Our correspondent at Delaware City sends us the following:

There was not a large, but a good and appreciative audience to greet the Rev. John Collins McCabe, D. D. on Thursday evening of last week, upon the occasion of his lecture on "Woman's Rights and Woman's Wrongs as connected with Woman's Work and Woman's Worth." To say the subject was well handled would only be the unanimous verdict of all who had the pleasure of hearing him. His masterly impersonation of what he considered the woman of the period, who thought herself defrauded of her rights, was a finished burlesque, while his description of the new element under the sixteenth amendment as the brawler—the unsexed amazon who arogates to herself the duties of man, placing him in a secondary position—was truly inimitable!

While he announced himself a friend to woman's rights, he contended that contact produced assimulation, and the function allotted to man was not within the sphere of woman. He instanced a supposed character, called Sallie Blunt, who elevated to the position of a member of Congress by her too willing constituents, sacrificed her life in a cause she became wedded to, from the force of circumstances; and, to carry the burlesque farther, he described the commander of a regiment, in her disregard for the old-fashioned side saddle, (which he, too, eloquently described,) preferring the McClellan, and it was so perfectly ludicrous that the audience was compelled to applaud; and when he designated a true woman as the priestess of domestic happiness, there was not a beating within a woman's breast of all the audience, but endorsed the words of Dr. McCabe.

His recitations were *first-class*, and we thought as we listened to his peroration, that Wattson's poem of "Beautiful Snow" could not be rendered more faithfully, or Hood's "Bridge of Sighs" more effectually. Tears stood in many an eye, and altogether, the Dr.'s visit and lecture will long be remembered.

On Sunday last we had the pleasure of listening to the Rev. Thomas B. Hunter deliver two sermons, morning and evening, in the M. E. Church. Born and educated in this town, depending entirely upon self for his mental attainments we feel sure that his future is destined to cast lustre upon the Conference to which he became attached two years ago.

Upon this occasion he did himself credit. In the morning, taking the words of Paul, "I am crucified with Christ," he delivered a plain practical discourse upon the importance of christians so living that the "pearl of great price" may not be a mere myth, but a reality. At times he grew eloquent, and it could readily be perceived that he had made an impression that we hope may be lasting. In the evening from the words, "How shall we escape if we neglect so great salvation?" he showed clearly from the words of scripture that there was none save the narrow road that leads to life. His appeal to his former friends and old school mates, abounded in heartfelt feeling for their welfare, and there was none in all that large audience but felt proud of the only minister of the gospel this city has ever sent forth. That he may become successful as a great moral teacher is the wish of all who were so highly entertained and instructed by his two sermons last Sunday.

While taking a stroll down the Port Penn road last Friday, the thought occurred to us that your readers would like a word in relation to the model "Vineyard Farm" of Arthur Colburn, Esq. and through the courtesy of Mr. S. Downs, we were shown through the dairys, stables, &c. and gathered many facts worthy of mention that other farmers may, by example, become profited. The upper dairy is a large building with stall room for sixty cows, each one separate and distinctly provided trough and watering conveniences unsurpassed. From this dairy there is made each week over one hundred lbs. of butter, although there is but thirty cows now giving milk. The lower dairy is arranged very nearly upon the same principle save that the cows instead of being chained to perpendicular sliding travellers as they were in the first, were merely haltered to the stall. From this dairy, from thirty-five cows now milked, there is made weekly 150 lbs. of butter. Everything betokened that cleanliness and due attention to the wants of the stock were attended to. During the past season Mr. Colburn has cut from sixty-nine acres 250 tons of clover hay Has in his granary near 7000 bushels of corn, and has shipped or about to ship the balance of 6000 bushels of wheat; five acres yielded 1500 bushels of turnips; and 300 baskets of dwarf pears was the yield of his orchard. He has on his farm over 200 head of stock, 25 horses and 7 head of working oxen, and employs days during the busy season from 30 to 40 men. Lately he has made additions to his farm by purchase, until it has become one of the largest farms in one body in the State, it containing 1500 acres. It is his intention to erect in the spring a splendid mansion, nearly opposite the residence now occupied, which shall vie with, if not surpass any in this section of the country. After spending our afternoon very pleasantly we returned home, well pleased with our visit.

Owing to the barge Thomas Lynch, of Easton & McMahon's line, sinking in the deep-cut on Monday morning, navigation on the canal was closed. On Tuesday, after a portion of her cargo had been removed, she was raised and towed to Bird's Landing, and navigation opened as usual.

Abner Allston, of St. Georges Hundred, was robbed on last Monday week, by a negro man, who laid his hands feloniously upon gun, overcoat and other portable articles, and left for Baltimore, per Erricson boat, notwithstanding one of our brave constables was at the locks when the boat arrived. He declined going on board for fear of the prevailing epidemic.

As we close the record of the week we must lament the dearth of news, while we must congratulate our citizens that no dire calamity has visited our place, but with our good health and usual prosperity, can thank Heaven that everything for us seems propitious.

FRUIT GROWERS' MEETING AT SEAFORD.—We were informed that there was no meeting held in Seaford, last week, and consequently made a note in last Saturday's issue to that effect. A meeting was held, and a member kindly sent us the following account of the proceedings, which were received too late for last week:

The Peninsular Fruit Growers' Association held an adjourned meeting at Seaford on the 15th instant.

There was a very full attendance of fruit growers from the neighborhood of Seaford, Laurel, Concord, Bridgeville, Greenwood, and Georgetown, as well as some from Maryland. Fifty or more of the leading growers of the neighborhood were present, and took a deep and earnest interest in the proceedings.

The meeting was organized by appointing Levin Hitch, Esq. President, and W. Fisk Townsend, Esq., Secretary.

On the call of the meeting, Mr. Fulton, Secretary of the Peninsular Fruit Growers' Association, stated the object of this adjourned meeting. He said that it was felt impracticable for all the fruit growers on the peninsula to attend the meetings of the Association in Dover. Hence, at its last meeting, it had resolved to hold adjourned meetings at Seaford, Milford, and Middletown, in order to give all an opportunity to attend, to exchange views, and thus learn each others wishes and wants, so that all interested in this great and constantly increasing business or pursuits, might act harmoniously and efficiently for their common benefit. He said no interest of the same magnitude was so poorly protected, or so much imposed upon. The carriers of our fruit charged us exhorbitant rates, and afterwards our consignees cheated us out of what was left. If we could all unite in one organization and board of management, all this would be redressed. He advocated the formation of local societies, in connection with the present society. In this way the influence of every locality would be represented and felt in shaping the course of that society, and what was best for the interests at large would be resolved and executed. And this would not supercede the necessity or importance belonging to the central organization, but only bring new aid, mental and material, from sources not otherwise accessible.

The meeting also called out ex-Governor Ross, Edward Martin, Esq., Mr. Fields, of Maryland, and Dr. Bliegood, who all made able and forcible addresses, arguing for the necessity of united and energetic action, and illustrating their positions by telling facts.

The utmost harmony and good feeling prevailed throughout, the only regret being that so few of the fruit growers from Kent and New Castle were present.

The Grand Jury on the [illegible] case being [illegible] and [illegible]

NEW CASTLE ITEMS.—Times are a little more lively just now, and everybody seems to be on the make. Joseph Yarnall, Esq. formerly proprietor of the Delaware House, has leased the dwelling house formerly occupied by James Booth, Esq. situated on Delaware street, opposite the Court House, which he proposes fitting up as a first class Hotel and boarding house, something badly needed in town.

R. L. C. Rambo, travelling Photographer, of West Chester, Pa. has located his Saloon opposite the Town Hall, where he is always on hand and ready to minister to the people's wants in his line. As Mr. Rambo is an adept in the art, we bespeak for him a liberal patronage by our citizens while he remains with us.

The regular Semi-annual castigation of convicts commences next Saturday with the introduction of the "Cat" to the backs of about ten villains, who have been convicted this week for larceny and other offences, at which we suppose the *Commercial* will set up its semi-annual howl. About twenty prisoners have been discharged this week, most of whom have been acquitted of the offences with which they were charged.

Our Fire Company was unceremoniously called out one night last week in a drenching rain to extinguish the fire in a chimney of a certain residence on "Bull Hill." The Company returned in about an hour somewhat crest fallen.

L. W. Stidham & Son have been engaged for several nights past in the Town Hall, in selling Watches, Jewelry, Cutlery, &c. the property of a bankrupt.

The will of the late Theodore Rogers, Esq. was admitted to probate before the Register on the 18th inst. and Letters Testamentry were granted unto his two brothers, Jacob S. and Columbus B. they being the Executors named. The estate was estimated at 237,000 dollars, which is much below what people generally supposed him to be worth.

The will of Levi Ryan, late of Middletown, was also admitted to probate on the 22d inst. Mrs. Ryan, the widow, being named as Executrix, Letters Testamentary were granted unto her. Estate estimated at 10,300 dollars.

As a precautionary measure, all the prisoners remaining in prison at the rising of this term of Court, are to be vaccinated.

The Fair that was to have been held during the holidays under the auspices of the Roman Catholic Church, has been, for some reason, postponed till Easter.

The Court House needs better ventilation, the stench arising at times, being such a variety of smells combined into one, is absolutely sickening.

ODESSA ITEMS.—The citizens of Odessa held a meeting on Tuesday night last, to make provision against the introduction of the small-pox. A committee was appointed to visit the families of the town and see that every one is vaccinated. A fund is to be raised to have those vaccinated who are unable to pay for it themselves.

The Sabbath School, connected with the Drawyer's Presbyterian church, intend holding a Missionary Anniversary during the early part of next month.

The Sabbath School connected with the M. E. Cherch, will hold a jubilee during the Christmas holidays.

Sheriff Denny, of Elkton, arested an Irishman named Patrick Hester, at Mt. Carmal, in the Pennsylvania coal region, last week, said Hester having stolen, about two years ago, a valuable horse from the stable of Charles A. Bryan, Esq. at Pivot Bridge, Md. and a buggy and harness from the premises of Mr. Thomas Cavender. Hester, who is a desperado, showed fight when being arrested, but the Sheriff put a pistol to his ear, which subdued his grit. Hester has since been released, his wife paying $500 bail for his appearance at court.

EMIGRANT LABOR ASSOCIATION.—We have been requested to say that a meeting will be held at Ortlip's Hotel, on Monday next, at 10 o'clock, A. M. to consider the question of forming an Association to import domestics and other laborers from Europe. It is hoped that a full attendance of the citizens of this vicinity will be had, as all are interested in this important matter.

List of Letters Remaining in the Post Office for the week ending Nov. 25th, 1871.—Mrs. Ellen Cassin, Miss Maggie Hall, William Lines, H. Moxway, Wm. R. Nickerson, John N. Redul, Mrs. Mary J. Scott, Charles Jolson.

Persons calling for the above will please say that they are advertised.

John Kennedy, one of the oldest citizens of Newark, fell dead in the street on Monday last, while in conversation with Dr. Kennedy. He was 79 years of age, and had enjoyed good health up to the time of his death.

FIRE AT NEWARK.—The drying house attached to the factory of Messrs. Dean, Pilling & Co. at Newark, was destroyed by fire on Wednesday evening; supposed to be the work of an incendiary.—*Journal.*

We learn that John Ward Davis, Esq. residing in Sassafras Neck, had a new carriage and harness stolen on Saturday night last. No trace of the thief had been discovered at the latest accounts.

John R. Willson, of Smyrna, was taken before Alderman Budd on Saturday charged with threatening the life of his wife. He was held to bail in $1,000, in default of which he was taken to Dover.

The *Peninsular News and Advertiser* is announced to make its appearance on the 5th of January. This is the paper that is to be revived at Milford by Drs. Prettyman & Davidson.

The Odd Fellows of Smyrna are making preparations for holding a festival on Wednesday, Nov. 29th, and Thanksgiving Day and evening, November 30th.

APPOINTED.—John W. Jolls, has been appointed R. R. Agent at the Depot, in the place of John Vasey.

THE INDIANA LYNCHINGS.

Indiana is earning a reputation for violence equal to that which is for party purposes given to poor South Carolina. Within a week we have had two decided cases of mob law there—one the lynching at Henryville of the supposed negro murderers of the Park family, and the other an unsuccessful attempt to lynch an alleged murderer at Brookville. These instances bring to mind the Reno case, and lead us to suppose that there must be some general degree of lawlessness throughout the State. Taking it for granted that the courts are what they should be, there is no excuse for such resorts to lynch law. Indiana has no robber State government tormenting her from within, and does not suffer from the despotic violence of the administration from without. In her interior economy and in her relations with the general government there is every guarantee of peace, and unless the local administration of justice be either actually corrupt or so loose and inefficient as to be about as bad there seems no apology for the lynchings of which we hear. Having this much confidence, however, in the general goodness of human nature as not to believe that whole communities will wantonly take life, we are inclined to think that the Indiana courts are not what they should be. So long as punishment is certain, even if slow, people will wait the course of the law and sustain its officers if necessary against molestation; but if the conviction once gain ground that the community is tampered with in its right to protection it will not be long before the unfaithful guardians of the public safety will be thrust aside and punishment be meted out in a summary manner according to the popular idea of what is right. Technically, of course, all this is wrong; but practically it amounts to this: that if the courts do not punish mobs will. This is particularly seen to be the case South. Trust in almost a purely agricultural community and thus positively exposed to theft.

It is so easy for the idle negro to steal a hog or a cow that the farmer is constantly missing his stock. At length he lies in wait for and detects the thief. The proof is so clear that even partisan judges and negro juries send the pilferer to the penitentiary. In a few days he is out, pardoned by the Radical Governor whose local mainstay he is, and back again at his cow-killing and hog-stealing trade. The farmer misses another fine porker, or perhaps the finest of his milch cows. It is beyond question that this old despoiler has carried off the one, or taken a quarter from the other and left the carcass to rot in the woods. What is the man to do? Must he sell out and move off, or bring up the thief for another trial and another pardon, or must he resort to first principles and defend himself? Evidently he thinks the latter. The thief is visited at night and receives a tremendous flogging. In revenge he burns the farmer's house or barn, and then he is hanged. It is a sad game of wrong and retaliation, but what are men without public protection to do? Governor Bullock, of Georgia, is recorded to have pardoned one criminal every other day, Sundays and all, for his entire term of three years. Governor Scott, of South Carolina, pardoned 205 out of the 486 convicts sent to the penitentiary, setting loose anew on the community two out of every five. The crimes pardoned range from murder, rape, and arson to hog-stealing, and where the pardons were thickest there the so-called Ku-Klux outrages occurred. The same premises were made to exist as we fancy now exist in Indiana, and the same bloody conclusions ensue. It is idle to localize that which is really general—to make people think that it is Ku-Klux in one State which is mere mob law and lynching in another. The cases of Indiana and South Carolina, of Nevada and Georgia, are identical.—*N. Y. World.*

CORRESPONDENCE.

Finding from a letter in the "Transcript" a short time since, written by Samuel Townsend, Esq. that the Peach Growers Association are making an effort to ship peaches direct from their orchards to cities beyond New York, I send you the following list of Rail Roads and the important towns along their lines, which may be of some benefit to fruit growers, Mr. Townsend with his usual perseverance and energy having arranged to cross from Jersey City to the other R R's. I will begin with the Hudson River R. R. Along this line are, Yonkers, 5000 population, Tarrytown 8000, Sing Sing 6,000, Peeckskill 4,000, Poughkeepsie 45,000, Rhinebeck 3,000, Hudson 10,000, Albany 100,000, Troy, 75,000, and Schenectady 15,000. On the New Haven R R. are Greenwich 8,000, Stamford 10,000 Norwalk 25,000, Bridgeport 40,000, New Haven 60,000, Meriden 10,000, Wallingford 8,000, Hartford 45,000, Thompsonville 7,000, and Springfield 35,000. On the Boston and Albany R R. and connections are Palmer, 10,000; Worcester, 50,000; Westborough, 5,000; Framingham, 5,000; Brighton, 8,000; Boston, 350,000; Lowell, 80,000; Salem, 40,000; Lynn, 40,000; Danvers, 15,000; Newburyport, 25,000; Lawrence, 30,000; Gloucester, 20,000; Portsmouth, 25,000; Dover, 18,000. From Worcester on the Worcester and Nashua R R. and connections, are Clinton, 6,000; Lancaster, 4,000; Harvard, 4,500; Groton, 3,000; Pepperell, 3,500; Nashua, 20,000; Manchester, 38,000; Concord, 15,000; Grafton, 8,000, and Fitchburg, 20,000. On the Springfield and Northampton R R. are North, South and East Hampton, 20,000; Greenfield, 10,000; Brattleborough, 6,000, and Rutland, 12,000. Starting again at New Haven, on the New Haven, New London and C. R. R's. are New London, 42,000; Stonington, 10,000; Newport, 12,000; Providence, 90,000; Middletown, 11,000; Norwich, 14,000; Willimantic, 7,000 On the New York Centeral R R. are Rome, 22,000; Utica, 50,000; Syracuse, 44,000; Oswego, 25,000; Lyons, 7,000; Palmyra, 8,000, Rochester 85,000, and Caniaudaigua, 10,000, making in all a population of 1,847,000 people To this, add the population of shipping points already established, say, Wilmington, Chester, Philadelphia, Trenton, Newark, New York, Brooklyn, Baltimore, Harrisburg, Reading, Scranton, Williamsport, Allentown and Elmira, probably 3,000,000, and we have 4,847,000 people, all fond of peaches, and willing and ready to buy them, at a reasonable price. The only thing is to arrange, to reach each of these points, without the intervention of the New York commission men.

Now, as there are many persons growing peaches, not members of the Peach Growers Association, yet sharing the advantantages derived from the Association's labors would it not be well, for the Association to appoint one member, a committee for each shipping point, to assess upon each grower $1 for each 1000 trees, and with this fund, send Mr. Townsend, or if he can be found, some other equally good man, to spend the intervening time, from now until peach harvest, in opening new routes, establishing dealers, and perfecting all the necessary arrangements for making the next peach crop pay the growers, at least as well as the past one did the R. R's and New York Commission men. The peach Growers of this Peninsula, by united action can control the peach business, and make it continue profitable, but this can only be done by working together. There are people enough in Pennsylvania, New York and the New England States to consume all the fruit this Peninsula can grow, if they can get it, and since we can grow the fruit, let such a course be pursued as will result in the greatest good and most money. Knowing but little about the peach business, my ideas may be erroneous, but they are given for what they are worth, and if they do no good, will surely do no injury.

FARINER.

New Castle Co. Nov. 22nd, 1871.

It has already been announced that acting Governor Conley, of Georgia, vetoed the bill ordering a special election in December next to fill the vacancy created by Bullock's resignation. On Wednesday the Legislature passed the bill over the veto by more than a two-thirds majority.

For the Middletown Transcript.

TOWNSEND, DEL Nov. 20th 1871.

To Charles A. Mantz, Esq. Member of the National Democratic Committee for the State of Missouri.

DEAR SIR:—You wrote to me, as one of the National Democratic Committee, proposing St. Louis as a suitable place to hold the next Democratic National Convention. I should have answered your letter sooner, but waited to see the effect of the treachery of the Free State Democracy in abandoning Democratic doctrine—the rights and superiority of the white race, and the pledge that when we got into power those Congressional enactments, called the 14th and 15th amendments, should be wiped off the statute-book, or go unheeded.

The result of the treachery of the Free State New Departurists, as they call themselves, has been, as I anticipated, just and ignominious defeat from the Atlantic to the Pacific. Therefore, there will be no use to meet these defeated traitors next year in a National Convention. They would have a majority of the Delegates and could pass such resolutions, and adopt such policy, as they pleased. We, in the old Slave States, where the negro element resides, dare not accept such resolution and policy as might be adopted by these Democratic Negro Equality New Departurists, or, in other words, Republicans; therefore, in my opinion, no Delegate from the late Slave States should meet these men in a National Convention, but as Delegates from the late Slave States, should meet either in Baltimore, Louisville, or St. Louis, hold a White Man's Convention, and nominate candidates for President and Vice-President, then let the Free State Democratic Negro Equality men and the Republicans each nominate candidates, and if there is no choice by the people let the House of Representatives decide it.

SAMUEL TOWNSEND.

ITEMS OF NEWS.

The reports from Mexico, if they should turn out to be true, indicate that an extensive revolutionary movement is in progress. If the leaders whose names are mentioned, are really at the head of it, the peril to JUAREZ is very great. It does not, however, appear certain that Porfirio Diaz has joined the revolutionists, although he is evidently suspected of favoring it. Diaz, at this time Governor of Oaxaca, was the most formidable rival of Juarez in the contest for the Presidency, to which the latter, by means which are not altogether unknown to this country, was recently re-elected. If Diaz, who is quite popular throughout Mexico, should take up arms against Juarez, there can be no doubt that the insurrection would then acquire a very serious aspect. The chances of Juarez lie in the divergent motives by which the revolutionary Chiefs are actuated. Men like Diaz, whilst they would overturn the Government, would respect the integrity of the Republic. Men like Trevino want to establish a saparate Republic in the States lying between the Sierra Madre and the Rio Grande, whilst Carvajal, Negrete, Martinez and Cortina, are old revolutionists, ready to fight on whichever side offers the best opportunities for pay or plunder. Still, if Juarez has asked Congress for extraordinary powers, it is evident that he at least feels that the danger is imminent.

The Grand Duke Alexis arrived in New York on Saturday evening last, and had a most brilliant and enthusiastic reception on Tuesday. The address of welcome was made by General Dix, and was briefly but gracefully replied to by the Prince The display on Broadway is reported to have been magnificent. Ten thousand troops were in line, and the crowds of people were so dense that locomotion was impossible. Thousands of poles on the street were filled with flags. The windows were decorated with Russian and American flags, and filled with human beings, giving Broadway an appearance of a vast arena. The ride of the Prince from the Battery to Union Square was a continued ovation, and cheer rose upon cheer "as a sea of handkerchiefs fluttered from delicate fingers." No man on earth, it is remarked, ever received such an ovation from New Yorkers. In the evening he was serenaded at his headquarters, the Clarendon Hotel, which was magnificently fitted up for him. He went to Washington on Wednesday and paid his respects to the President on Thursday.

A sad disaster occurred on the Thames, about five miles from Norwich, Conn. on Wednesday. A fire, caused none knows how, broke out on board the steamer City of New London, and gained headway so rapidly that the passengers, numbering seven, and the officers and deckmen, numbering about thirty, were compelled to throw themselves into the water to escape death by fire. Three of the passengers and nine of the crew were unable to reach the shore, and were drowned. The steamer was burned to the water's edge, and the cargo, composed chiefly of cotton, was destroyed. The coolness and bravery of the captain and engineer are highly spoken of. They remained at their posts until overpowered by the heat, when they were fortunately rescued.

The Tennessee Legislature has passed a bill authorizing the lease of the State prison labor for five years at $35,000 per annum, and the House has repealed the law imposing a tax on commercial drummers.

The Legislature of Georgia, has elected by an overwhelming majority, Hon. Thos. M. Norwood, a moderate democrat, of Savannah, to the United States Senate.

The Superior Court of Boston has decreed $400 damages to the colored preacher who has refused a seat at the dinning tabje of one of the Narragansett Company's steamers.

THE DREAM.

To me, indeed, 'twould really seem,
The want of sense to heed a dream.

I dream'd, no more a son of toil,
"I'd shuffled off, this mortal coil"
And bade to all farewell—
My feelings, when my spirit's flight
Had pass'd the bounds of day and night,
And I" uto'a regions bove in sight,
Were terrible to tell.

And there I stood within that door
Where thousands went, but never more
Return'd to life and light—
Old Milton, with his graphic pen,
Would fail to paint that horrid den
Of devils and of damned men.

It would melt the living heart with wo
Were I to tell the agonies below!
Oh! there are themes reflection would forbear,
Unfitting me to tell or you to hear!

And still a *lower* place I saw
For those evading human law
Their brother man to cheat,
And there, amid that spirit crowd,
I saw my *landlord*, till and proud,
Sing like the rest in accents loud
And time it with his feet.

Thus sang they all, in wild discord,
The very words on earth I'd heard,
But in a different vein—
Some shriek'd their notes in wildest wo—
While others rocked them to and fro,
Each strove the other to out-do,
To swell that vile refrain.

Their very smiles were mix'd with frowns severe
For all were wont to sing and none to hear—
And this they sang with a fiendish glee,
"Little brown jug
Don't I love thee?
Ha, ha, ha, you and me,
Little brown jug
Don't I love thee?"

They sang, till that dark cavern rang
With the vile chorus of that song,
In one continued yell—
No halting there—with sharpen'd pole
The devils punch'd each lagging soul,
And held them all in firm control
Down in that *lower* hell!

Who has not wak'd, with frightful scream,
O'erjoyed to find it but a dream
That through the brain had crost?
But not for worlds would I again,
E'en in a dream, behold the pain,
Inflicted on mine host!

Time, from my heart, can ne'er efface
The horrid vision of that place,
Until my dying day—
I ponder on what then I dream'd—
It hell should be what then it seem'd—
Where never ray of hope had gleam'd,
I caution *him* to pray!!

A SPECIFIC FOR SMALL-POX.

We find in the Kittanning (Pa.) *Free Press* of Nov. 9th, the following communication, from an eminent physician of that place, in regard to a lately discovered specific remedy in the treatment of that most loathsome and dangerous disease, the small-pox:

SIR: Having but little experience in the treatment of small-pox, I feel some diffidence in taking the present course to call the attention of the profession and the public to a peculiar remedy for this loathesome disease, which I regard as a specific, as much so as quinine in ague; but as I do not see any notice of it in the papers, and as the disease appears to be spreading rapidly in various portions of our country, I consider it a duty to draw the attention of the public to it.

In the American Journal of Medical Sciences, Oct. 1857, page 552, will be found a communication from R. Landell, M. D., of Porto Alegre, Brazil, in which he advocates the internal administration of vaccine virus in the treatment of small-pox.

Being impressed with the idea that the treatment was rational, I determined to give it a trial the first opportunity.

On the 18th of December, 1859, I was called on to visit a child near two years of age, laboring under small-pox, the pustules being first observed by her parents on the 16th, two days previous to my first visit. I first gave a dose of calomel and rhubarb sufficient to operate moderately on her bowels; then, after obtaining the sanction of her parents, I put one quarter of a good sized crust of vaccine virus into 16 teaspoonfulls of water, and directed one teaspoonful to be given every three hours. On the 21st, three days after commencing the remedy, the pustules had a shrivelled appearance and on the 24th, 6 days from my first visit, the pustules were so completely abated that I considered my patient out of danger and quit visiting her. All the medicine this child took in addition to the above was some mild laxative every second day when necessary. From the number of pustules on this child, (who was not protected by vaccination, (I have no doubt she would have been a very serious if not a fatal case under any other treatment. Two years after treating the above case I had an opportunity of examining her, and could not find a pit or mark on her person.

Since the foregoing case, similar treatment, on three different occasions, has been attended by like satisfactory results.

I do not suppose any injurious effect would follow much larger doses, and by observing the difference between large and small doses in the rapidity of recovery, would soon determine the quantity best adapted to ordinary cases. I think the remedy should be resorted to as soon as possible in the disease. One person administering the vaccine virus by my directions, assured me that where the virus was given in the fever before the pustules appeared they never developed.

The only precaution necessary in administering the vaccine virus is to have a good article, to mix only so much at once as will last one or two days, and keep it in a cool place, to prevent it from becoming putrid and offensive.

Now is the time to test Dr. Landell's suggestions, and I have no doubt the verdict will place him as a benefactor of the human race, beside of Jenner.

I forbear to give my theory of the modus operandi of this remedy, but this has been known [illegible] already.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

For a *Cough* and *Cold*, no better remedy can be had. Take small doses three times a day and put the feet in warm water at night, until the disease is broken up.

For *Influenza*, when it affects the throat or lungs, take the same course.

For *Hoarseness, Cough*, give small doses three or four times a day.

For *Croup*, give large and frequent doses until the disease is overcome.

No family should be without the *Cherry Pectoral* on hand to protect them in case of attack, from the above complaints. Its timely use often spares the patient a great amount of suffering and risk, which he would incur by waiting until he could get other aid. Parents, keep it in your houses for the exigencies that arise. Lives dear to you may be saved by it.

So generally are its virtues known, that we need not publish certificates of them here, or do more than assure the public that the best qualities it ever possessed are strictly maintained.

Prepared by Dr. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

For sale by Charles Tatman, Middletown, Del., and by Druggists and Dealers in Medicine everywhere. [Oct. 15—3]

VINEGAR BITTERS

J. WALKER, Proprietor. R. H. McDONALD & Co., Druggists and Gen. Agts., San Francisco, Cal., and 32 & 34 Commerce St., N.Y.

MILLIONS Bear Testimony to their Wonderful Curative Effects.

They are not a vile Fancy Drink, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors, doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead that inebriate to a drunkard's grave and ruin, but are a true Medicine, made from the native roots and herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and A LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the System, carry off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

They are a Gentle Purgative as well as a Tonic, possessing also the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms are the offsprings of Dyspepsia.

They invigorate the stomach and stimulate the torpid Liver and Bowels, which render them of unequaled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Pin, Tape and other Worms, lurking in the system of so many human beings, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, and follow strictly the directions given.

No system of medicine, no vermifuge, no combination of vermifuges, will free the system from worms like these Bitters.

Sold by all Druggists and Dealers.
